

TS SERIES

MODEL

TS4-560

The TS4-560 is a compact 6-axis robot built for high-speed, high-precision operations in the 3C industry. Standard cycle time under 0.33 s, IP67 wrist protection and floor/wall/ceiling mounting let it drop into tight cells for assembly, screwing, handling and inspection. It ships pre-integrated with our own inCube20 controller.

6-Axis	Repeatability	Texsonics RC	Site-ready
Payload 4 kg · Reach 560 mm	±0.02 mm positional accuracy	In-house controller, drives and teach pendant	Floor / Wall / Ceiling mount, factory calibrated

01 SPECIFICATIONS

MECHANICAL

AXES	6
PAYLOAD	4 kg
MAX REACH	560 mm
REPEATABILITY	±0.02 mm
ROBOT WEIGHT	≈ 23 kg

ENVIRONMENT / CONTROL

STANDARD CYCLE TIME	< 0.33 s
MOUNTING	Floor / Wall / Ceiling
PROTECTION	IP65 (IP67 optional)
CONTROLLER	inCube20 (in-house)

02 PRODUCT

TS4-560 · TS SERIES

03

WORKING RANGE

MOTION — GROUP A

J1 — BASE ROTATION	−170° ... +170°
J2 — SHOULDER	−110° ... +120°
J3 — ELBOW	−108° ... +152°

MOTION — GROUP B

J4 — WRIST ROLL	−200° ... +200°
J5 — WRIST PITCH	−118° ... +118°
J6 — TOOL ROTATION	−350° ... +350°

04

OVERVIEW

ENGINEERED FOR THE
FACTORY FLOOR.

The TS4-560 is a 6-axis industrial robot built for 3C Assembly & Testing and related production work. Factory-calibrated, floor or ceiling mount, and pre-integrated with the Texsonics RC series controller and teach pendant.

01

HIGH-CYCLE MOTION

Repeatability ±0.02 mm across a 560 mm envelope — dependable for line-rate production.

02

INTEGRATED STACK

Ships with the Texsonics RC controller, safety I/O, teach pendant and offline programming environment — no third-party integration needed.

03

LOCAL SUPPORT

Engineered and assembled in Coimbatore. Field service and spares within India — no import lead times.

05

CONTROL & INTEGRATION

CONTROLLER

Texsonics RC series

in-house motion controller, dual-kernel real-time OS

TEACH PENDANT

11.5" touch tablet

drag-teaching, Wi-Fi, on-device offline programming

FIELDBUS

EtherCAT / Modbus TCP

industrial fieldbus, dual-protocol support

SOFTWARE

TEXCAM offline CAM

toolpath generation, digital twin simulation, vision

06

APPLICATIONS

Deployable across the primary applications the TS4-560 was engineered for — full production-line integration with the Texsonics control stack.

3C Assembly & Testing	High-Speed Handling	Screwing	Precision Inspection		
Machine Tending	CNC Loading	Palletizing	Assembly	Packaging	Vision Inspection

07

BUILT FOR THE OPERATOR

- Live 3D position display
- Online command execution
- Position editor
- Variable monitor
- I/O monitor
- Error diagnostics
- Dynamic teach-in
- Digital twin simulation

08

SERVICE & SUPPORT

Made in Coimbatore. Supported from Coimbatore.

Every TS4-560 is engineered, built and calibrated in our Coimbatore facility. Field service, spares and applications engineering ship from the same address — no import lead times, no time-zone escalations.

STANDARD WARRANTY

12 months on the mechanical assembly, 12 months on the controller.

APPLICATIONS ENGINEERING

Cell design, cycle-time studies and end-of-arm tooling by our in-house team, included on every project.

SPARES & FIELD SERVICE

Direct-to-plant spares from Coimbatore, with pan-India field service engineers on 24-hour dispatch.

09

READY TO INTEGRATE

Talk to an engineer about integrating the TS4-560 into your line.

Applications engineering, cycle-time sizing, and turnkey cell design are included on every project.
